

Kitchen Faucet

Lookbook

STYLE X FUNCTION

BARIL

For a perfect kitchen

In my house, and probably in yours too, one of the most used everyday objects is the kitchen faucet. From my point of view, it is therefore necessary that the use of the faucet is as pleasant as its appearance. I also believe that it is essential that everyone's experience using a BARIL faucet be simple, smooth and enjoyable.

If our customers invest in our faucets, it is because they want to offer themselves beauty and peace of mind. Thus it is our duty to deliver products with flawless design, impeccable finish and precise operation; products they will enjoy using, day after day. That's what we offer with our full line of kitchen faucets with a lifetime warranty*.

Whether your style is sleek and modern or classic and traditional, BARIL have got you covered. You'll find the same quality, premium features and attention to detail in every one of our kitchen faucets.

A handwritten signature in black ink, appearing to read 'M. Baril'.

Marie-Eve Baril
President

VISION

The VISION faucet is the result of a stylistic research aimed to subtly soften and beautify the junction between body and spout, by adding an elegant curve that is reflected into the slightly curved surface of the handle.

In addition to these qualities, we now offer you the possibility of customizing it so that it fits perfectly into your decor.

01 The Spout Shape

Choose between a round spout or an angled spout. The shape chosen will determine the **first 4 digits of the faucet code number**.

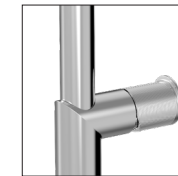

Round Spout
CUI-9249

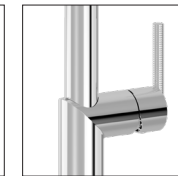

Angled Spout
CUI-9250

02 Handle and Spray Head

Choose the shape of your handle. The texture associated with it will highlight the handle and the spray head. This choice will determine the **middle digits of the code number**.

Round handle
and linear

Industrial
handle without
texture
32L

03 The Finishes

For the final touch, choose between 8 finishes, four of which are two-toned. In the case of two-tone finishes, the first letter corresponds to the faucet body finish while the second refers to the handle and spray head finish. Your choice will determine the **last 2 characters of the product code**.

The Spray Head

When shopping for your faucet in a store, **handle the faucet and its spray head!** After all, it is an object that you will handle every day. Pull the spray head, it must be rotating, made of brass (avoid plastic) and a hose long enough to allow you to thoroughly rinse your sink, your pots and your food. This hose must also be flexible, manoeuvrable and must slide easily. Ideally, it will feature an adjusted weight that will ensure the spray head return with force into the faucet body.

Your spray head must be handy and have an automatic docking to ensure that it remains in place after each use. You don't want a spray head hanging over your sink. As for the jet, we like it fluid and with an adequate pressure that does not splash. It should also transfers quickly in a vegetable spray jet.

MAKE THE RIGHT CHOICE

The Maintenance

Your faucet should be easy to clean! Insider tip: streamlined designs with smooth curves accumulate less dirt and food bits. For a quick and effective cleaning, the best method is to **wipe the faucet after each use with a microfiber cloth** or soft fabric.

Which Finish to Choose?

For kitchen faucets, **stainless steel or matte finishes are recommended for ease of maintenance.** Grease marks, fingerprints and water drops are less noticeable than on a shiny finish like chrome. A quick swipe of microfiber cloth and it's done! You still prefer a shiny finish? Do not hesitate! Your faucet will be the jewel of your counter or island and the most important thing is that you like it!

Warranty and Parts Availability

Ask for **warranty details.** Are the finishes included in it? Also make sure that **parts are available** in the event of a breakage. The cartridges, spray head or hose, for example, should all be easily replaceable. As you use your faucet every day, these details are as important as its style or type of finish. When choosing a BARIL faucet, you won't have to worry, we cover it all!

ARTE

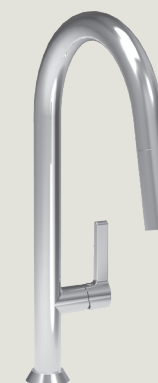

The ARTE kitchen faucets are part of the 30mm series, which should hint you at one of the characteristics the designers were looking for while conceptualizing it. The use of a smaller cartridge allows a slender profile with a diameter of, you guessed it, ...30 mm all along the faucet! This sleek, contemporary faucet family will bring to your kitchen the modern and luxurious BARIL touch that you know and love. And with 11 finishes available for all the faucets in this collection, you will undoubtedly find the perfect one for you!

Our Kitchen Faucets Advantages

Good Faucets' Ergonomics

Flawless design, and clockwork engineering; our kitchen faucets are as pleasing to look at as they are to use.

Comfort of Use Even in Minimum Space

The handle rotates towards the back of only 15° to avoid knocking against the backsplash area.

Superswivel Hand Spray

The integrated ball joint of the handspray hose makes the handshower very easy to rotate.

Handspray's Strength of Return *

The strength of return of the handspray is adjustable according to the user's wish when using the included weight and/or spring.

Automatic Docking *

The automatic docking ensures the spray will return in its place after each use, and that it will firmly stay in place.

High Usability of Hand Spray Hoses

Glide without noise, lightweight and flexible.

Easy Installation

Very steady and simple installation of faucets thanks to our threaded nut with 3 screws easily reachable, even in tight location.

Quick Connection

The brass connection facilitates the handspray hose's connection to the water supply. Complete the connexion with a simple click, no tools required.

Cool Start

Kitchen faucets open on cold water when the handle is in upward position, allowing energy savings and avoiding risks of burns.

Ecological Options

BARIL faucets offer different options to help you obtain a certification or to conform to your local standards regulations.

Lifetime Warranty **

It is with pride that we offer a lifetime warranty all our products against manufacturing defects.**

* On selected models.
