

B35 MARIE

BARIL

STYLE X FUNCTION

The MARIE collection is the meeting of two women, two entrepreneurs and two great Quebec brands, a luxury house and a high-end faucet maker. On the occasion of the 35th anniversary of Maison Marie Saint Pierre and BARIL, the two women have combined their respective talents in a collaboration whose motivation is to bring beauty, functionality and well-being to everyday life. Sharing a passion for quality and unique design, the MARIE collection pushes the boundaries of creativity in faucets and water accessories.

BARIL

STYLE X FUNCTION

Complete Thermostatic Shower/Bath Valve with 2-way Diverter and Hand Shower

High Quality Trim

The trim plate is top quality and extremely durable, made of solid brass.

Easy Rough-in Installation

Anchor points molded directly into the 4 sides of the rough-in make installation easy and very stable.

European Cartridges

High performance and perfectly calibrated ceramic cartridges with outstanding durability.

High Quality Materials

Made of solid brass, thicker than average, BARIL valves and trims are stronger and more durable.

Customizable Finishes

Each component is offered in a selection of finishes, all manufactured with state-of-the-art equipment.

Unique Design

With its pure forms inspired by nature, the Marie collection does not go unnoticed.

Comfortable Spray Patterns

The hand shower offers two spray patterns; rain or massage.

Built-in Hand Shower Holder

The two-position hand shower holder, back or front, allows for a neat look, whatever your style.

Temperature Control

The anti-scald ring on the cartridge is preset at 49°C/120°F.

Temperature Stabilization

The cartridge has a temperature variation of less than 1°C, making it one of the valves with the least temperature variation on the market.

MARIE Finishes

BARIL

STYLE X FUNCTION

For its MARIE collection, BARIL offers a palette of customizable finishes for each component. Choose independently the desired finishes for the plate, the handles and the hand shower to create your own assortment. Have some fun and try different combinations, the possibilities are endless!

Comfortable Spray Patterns

BARIL

STYLE X FUNCTION

Relax with the soft, comfortable spray of our hand shower with its rain or massage patterns. Plus, its anti-limescale silicone nipples are easy to clean, by simply rubbing them with your fingertips.

Rain Jets

Massage Jets

Eco-friendly Options

Protect the environment and save water with our eco-friendly options. In addition to the standard flow rate, BARIL offers an option to reduce water flow. Choose the option that works best for you.

Valve Controls

BARIL valves offer intuitive and ergonomic controls. Connected to high quality cartridges, they combine ease of use, temperature stability and safety for you and your family.

BARIL

STYLE X FUNCTION

Left Handle

To turn on the water and control the flow, turn in either direction, 360°, depending on the desired accessory.

Safety feature

For your safety, the anti-scald temperature limiting ring on the cartridge is preset to 49°C/120°F but can be lowered manually to suit your preference.

Center Handle

Adjust the temperature as you wish. It will remain the same until the next time you use your bath or shower.

High Quality Trim

The trim plate is top quality and extremely durable being made of solid brass.

Temperature Stabilization

The cartridge allows to preset the temperature so that it reacts to the slightest variations. Therefore, the temperature at the water outlet will remain unchanged, regardless of the temperature and pressure of hot and cold water supplies.

BARIL

STYLE X FUNCTION

European Diverter Cartridge

Made of high performance ceramic, this cartridge is one of the most reliable and durable on the market.

High Quality Materials

Perfectly calibrated, the thermostatic component of this cartridge ensures constant water flow and extremely precise water temperature control. The high-precision machining of its parts allows for a high flow rate, while its plastic casing prevents scale build-up.

Attention to Detail

Just like all of our BARIL faucets, the MARIE collection was designed with both style and function in mind. In fact, MARIE offers a balance between multi-purpose, versatile and efficient use, as well as a sculptural, customizable look.

BARIL

STYLE X FUNCTION

Dimensions

Diameter: 12"

Depth: 3-1/4"

Easy Rough-in Installation

BARIL

STYLE X FUNCTION

With our new stainless steel housing box, which includes mounting holes cut directly into it, installation is easy and very stable.

Built-in Mounting Holes

Temperature Control

This T type valve includes an anti-scald temperature limiter ring made of resistant ABS plastic. It is mounted on the thermostatic cartridge and preset at 49°C/120°F for your safety. You can always adjust it if necessary.

Reversible Check Stops

In case of hot and cold water supply reversal, the valve will not supply lukewarm water, only hot or cold water. To remedy this situation, simply switch the position of the check valves.

Easy Trim Installation

BARIL

STYLE X FUNCTION

BARIL trims are sturdy and easy to install. The one-inch depth adjustment as well as simple step by step instructions, will make the job easier when the time comes for installation.

Brass Trim Plate

4 mm thick brass plate allows for a very sturdy installation.

Watertight

A foam on the back of the plate ensures an optimal watertightness.

Front Access

The check stops are easily accessible, allowing the water supply to be shut off for cartridge maintenance without shutting off the main water supply.

Elegant Look

No visible screws for a sleek look.
