

B45 SENS

The SENS Collection will seduce you with the SENStuity of its design. The very harmonious lines of this faucet are consistent with the current round-square trend. In addition to being pleasant to touch thanks to its ergonomic shape, its modern design with softer and warmer curves fits as much with a large square sink as it does with an oval classic washbasin.

Attention to Detail

BARiL faucets are designed with both style and function in mind. The perfect alignment of moving parts like the handle versus the body, is only one example of our dual design thinking.
