

# B51 MA —

# BARiL

STYLE × FUNCTION

The design of the **MA** Collection rests on **M**astery of **A**rchitectural artistry. In a pure architectural spirit, this collection offers well balanced lines and perfect proportions. It combines esthetism and an outstanding comfort of use. Just like all our Design collections, this MA Collection is offered in smokey chrome finish besides chrome: this CF finish features a chrome finish with anthracite accents. These details give a nice contrast between the smooth chrome surface that reflects the light, and the matte anthracite surfaces that absorb the light.

Single hole lavatory faucet,  
drain not included

# BARiL

STYLE × FUNCTION

## Flawless finish

Two finishes available to give a personal touch to your faucet. Made with best technologies available

## Waterfall aerator

Relaxing and soft to the touch water stream, with no splashing

## Easy installation

Very sturdy installation using 2 threaded rods with a special tightening tool included in the box

## Refined design

Beautiful curved spout paired with a round body. The juxtaposition of straight and curved lines is dramatic yet simple

## High performance cartridge

Made with high performance ceramic, this progressive coaxial cartridge allows easy control of water temperature, while preserving a clean look

## Quality material

Forged of solid brass of a thickness above standards, BARiL faucets are very durable

Smokey Chrome (CF)

Chrome (CC)

**1.5**  
GPM FLOW RATE

BARiL equals quality

Uses 30% less water

Ecological options available

Durable ceramic cartridge

Ensures the perfect stream

# Waterfall Aerator

Our German-made aerator provides a relaxing and soft to the touch water stream, with no splashing.

# BARiL

STYLE × FUNCTION

## Ecological Options

BARiL is supporting the environment by offering options to reduce the water flow thereby economising your water usage

# Attention to Detail

BARiL faucets are designed with both style and function in mind. The coaxial handle that makes it perfectly integrated in the faucet's cylindrical body, is only one example of our dual design thinking.
