

ANGLE ---

BARiL

STYLE × FUNCTION

With its shape and design, this faucet stands apart from the crowd of standard faucets. The combination of its angles and curves are reminiscent of industrial piping, recalling the idea of water in its most raw expression. With its very discrete connections and its overall simplicity, ANGLE is a refined and elegant product that won a Grand Prix du Design.

Superior Hose —

Besides being very durable, our lightweight, flexible German-made braided hose is a pleasure to use. It glides so smoothly and quietly!

BARiL

STYLE × FUNCTION

Automatic docking

Ensures the head locks in its original position

Smart Handle Design —

The handle only rotates 15° towards the back to avoid knocking on the backsplash and to allow comfort of use even in minimum space.

The faucet opens on cold water when the handle is in upward position, allowing energy savings and avoiding risks of scalding.

BARiL

STYLE × FUNCTION

Easy Installation —

The installation of a BARiL faucet is very sturdy and simple, thanks to our threaded nut with easy-to-reach screws, even in tight location.

BARiL

STYLE × FUNCTION

3-points tightening make the installation very sturdy: it will not loosen.

Softpex Supply Lines

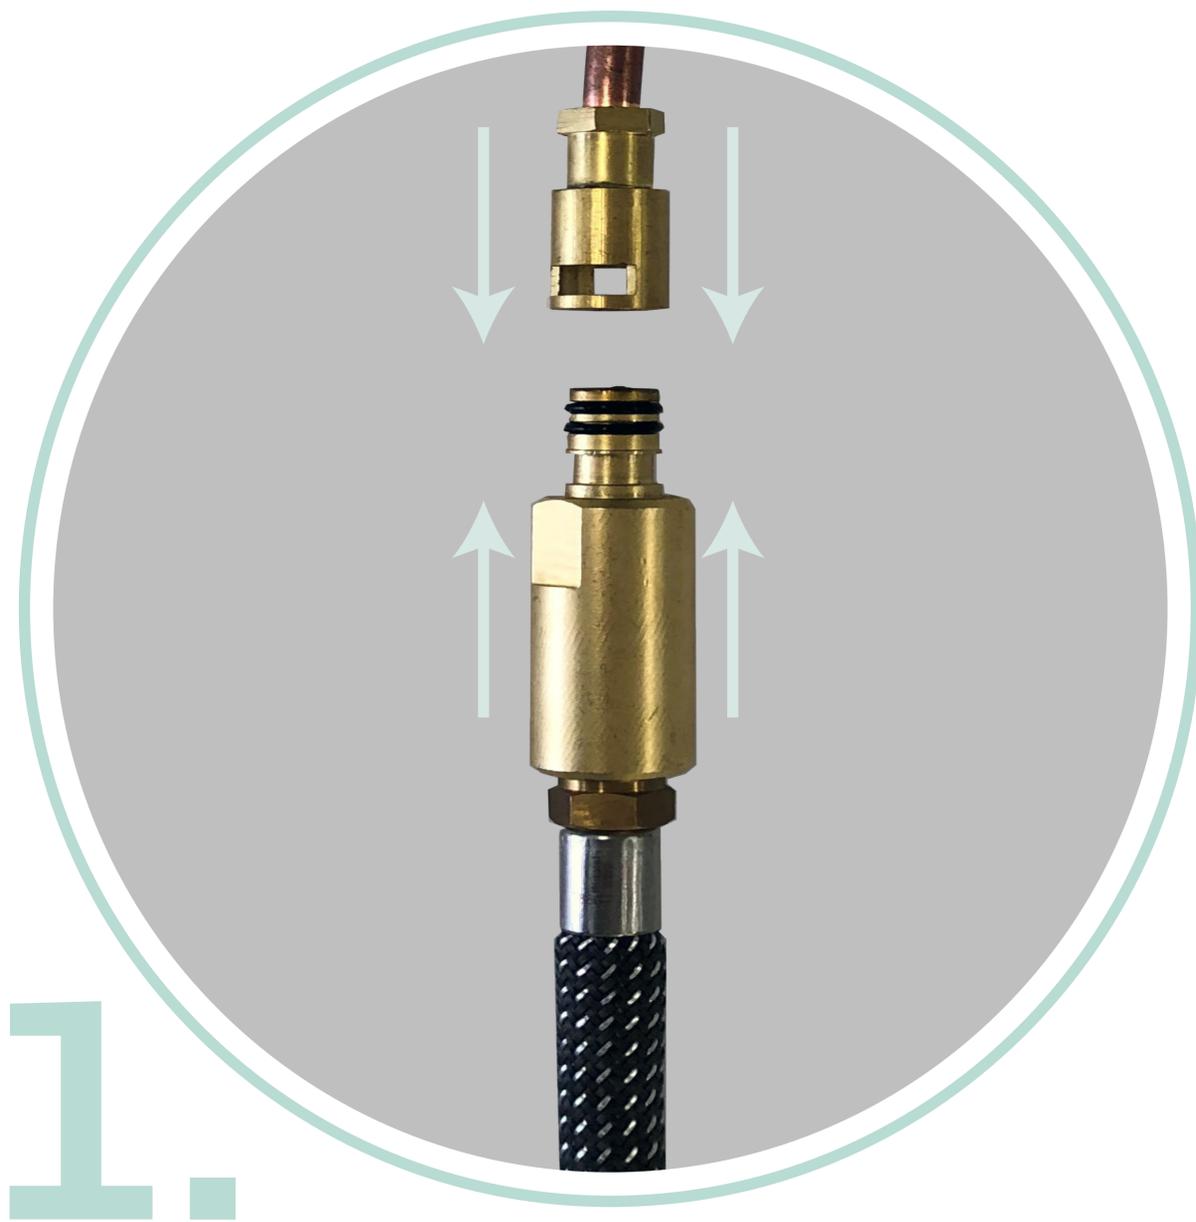

Corrosion and kink resistant, color coded. Swivel connection nuts to water inlets to facilitate the installation, and avoid twisting of the supply lines.

Quick Connection —

The brass connection facilitates the sprayhead hose's connection to the water supply. Complete the connexion with a simple click - no tools required.

BARiL

STYLE × FUNCTION

Superswivel Sprayhead —

The integrated ball joint of the sprayhead hose makes the handshower very easy and smooth to rotate while allowing multidirectional movements.

BARiL
